

Biography Dj Dekker

Like his barber and grandpa, Bert started at the age of 7 playing the keys and became even more fascinated by music.

When he started visiting parties and saw real DJs doing their jobs: he bought 2 turntables and a mixer.

For over more than 20 years, he still plays 150 times a year throughout Europe to create good vibes and amaze people with his way of playing. He achieves this by staying focused, creating energy with contrast, and get people in ecstasy. This way of real dj'ing connects everybody.

All kinds of music will pass by telling his way of the open format story.

With beats, guitars, breaks, tricks and scratches you will get a unique mix of Urban, R&B, Hip Hop, Club, Soul, Classics. Dj Dekker is a crowdreader and tries to please everyone at the same party.

It doesn't matter for him how big or small the venue is, he plays for 100 people at a club or 17.000 on a festival. For him is the most important thing to dj.
